# X<sup>th</sup> International Conference on Cognitive Neuroscience

## INVITATION

---

Dear Neuroscientist,

X<sup>th</sup> International Conference on Cognitive Neuroscience (ICON X) is approaching and we are pleased to highlight some aspects of its exciting programme that should not be missed. The exact titles, speakers and dates of keynote lectures and scientific symposia can now be seen in the scientific program on the next pages. They cover a wide range of cognitive neuroscience topics from philosophical aspects to basic and clinical research and modern neuroimaging techniques in addition to cognitive electrophysiology.

ICON X will be held from September 1st to September 5th 2008 in Bodrum, Turkey. Beyond being a lively, popular holiday resort on the Aegean Sea, Bodrum has an incredibly rich past as a place where people have lived continuously for thousands of years. Its position in or near so many of the great civilizations and events of ancient history also makes Halicarnassus (Bodrum) an interesting site to visit. So, the meeting promises to be both intellectually stimulating and culturally interesting !

We wish that you do not miss the abstract submission and early registration deadlines ! You can access both the on-line abstract submission and registration pages at [www.iconxbodrum.org](http://www.iconxbodrum.org). Abstract submission deadline is May 15th and early registration deadline with reduced fee is June 1st.

We would be very happy of meeting you all in Bodrum in September.

Sincerely,

Prof. Dr. Tamer Demiralp

## Bodrum and Environment

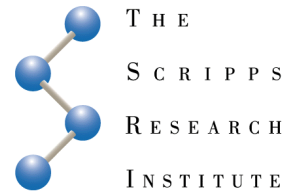

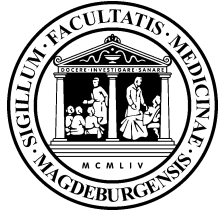

Bodrum, a charming town in Aegean region of Turkey with its bourgainvillea covered typical Mediterranean Bodrum houses, is located on a rocky peninsula where the Aegean and Mediterranean Seas join. Bodrum is the ancient city of Halikarnassos (1200 BC), birthplace of Herodotus and site of the Mausoleum of King Mausolus (350 BC), reckoned to be one of the Seven Wonders of the world. According to historic sources, it was established by Dorians, lived under Karian, Lykian, Persian, Macedonian, Egyptian and Roman sovereignties, and was captured by the "Rhodes Knights" in 189 B.C. The city came under Ottoman domination when Kanuni the Magnificent in 1522, captured the city along with the Island of Rhodes. An impressive medieval castle built by the Knights of Rhodes, the imposing Castle of the Knights of St. John, guards the entrance to Bodrum's dazzling blue bay, in which the Aegean and the Mediterranean Seas meet, and where the picturesque historic Harbour is home to elegant yachts and gullets. The beautifully preserved Antique Theatre nearby will also delight you in Bodrum.

Bodrum today; renowned for its lively, friendly and bohemian atmosphere, relaxed and informal life style, abundance of daytime activities and night time excitement is the centre of Turkish art community where many artisans have their exhibitions. The first tourism activities in the region started as the mystery and power of art revealed by these artisans. The excitement starts as soon as the night falls over the town.

Bodrum occupies a special place in many people's hearts. A popular home and resort for Turkish artists and intellectuals. Small streets packed with people wandering around and music coming out of the bars and clubs are an irresistible invitation for non-stop fun till the sun comes up.

You are never far from the sea anywhere on the Bodrum peninsula, making Bodrum itself an ideal staying point from which to visit the many peaceful havens along its beautiful coastline. The nearest Airport is Bodrum-Milas Airport which is only 40 minutes from the city centre.

December 28, 2007

Dear Colleagues:

We are writing to extend the invitation of Tamer Demiralp to attend the ICONX meeting in Bodrum, Turkey from September 1-5, 2008: [www.iconxbodrum.org](http://www.iconxbodrum.org). The meeting will follow the tradition of focusing on up-to-date cognitive science with stimulating speakers and symposia. The location is ideal with a modern hotel in a beautiful seaside area and many opportunities for sampling Turkey's splendid hospitality, superb cuisine, and fascinating culture.

As repeat visitors to Turkey, we wish to assure you that travel and visiting this fascinating country is a wonderful opportunity and one that is very safe. The friendliness of the Turkish people is well known and will be especially evident in the lovely resort town of Bodrum. We are certain that ICONX will be an exciting and memorable meeting, and that you will enjoy the outstanding cordiality of Turkey.

Sincerely,

Christoph Herrmann
